Phil Bloomer, Executive Director of BHRRC

It's time to explore the key opportunities and challenges for collaboration between business, civil society and human rights defenders.

Microsoft, the International Service for Human Rights and BHRRC invite you to join us for a discussion about the shared interest and values of business and civil society in working together to create an open and enabling environment which respects human rights, equality and the rule of law.

You will also get a chance to sneak a peek into the emerging '**Business network on human rights defenders and civic freedoms**', which will be presented during the meeting.

More than 20 companies and business groups are already engaged in the discussion on how to create the open environment that we want for business and civil society – we'd love to hear from you as well.
