RADICALLY TRANSFORMING A WORLD IN CRISIS

12PM - 1PM

ISHR OFFICES

1 RUE DE WAREMBÉ, 5th FLOOR
GENEVA

Women activists who work in conflict and post-conflict contexts are strongly contributing to sustainable and inclusive peace and security. The UN and its member States must recognise and consider women human rights defenders as partners in peace and security. They should holistically protect women defenders' groups, movements and communities and ensure an enabling environment where they can thrive and expand their work. We call on the UN and its member States to hold perpetrators accountable for violations against women human rights defenders and to take a firm stand against reprisals, violence and impunity.
